50,000 hour dimmable LED lighting

easy lift perforated zero clearance doors

rear access cpu storage

**Clean, efficient cable management** features horizontal and vertical pathways for routing wires, making the constant task of managing cables simple and easy for technicians and operators.

accessory tools

**Built-in structural rigidity** arises from unified frame design with fixed technology cavities, heavy duty cast aluminum posts and solid-core structural segments, ensuring solid performance over years of 24/7 usage.

steel kick plates

focal depth adjustment

**Integrated primary and input platforms** provide full leg clearance beneath the keyboard and the ability to simultaneously lift both platforms, maintaining exact positioning relationships when shifting between seated and standing positions.

acoustic privacy screens

single point interface

**Fixed, lockable technology cabinets** provide ample room for multiple large CPUs and support either front or rear access, minimizing operator disruption during technology service or repair.

## The Difference is in the Details

Synergy 2™ consoles are built to meet the rugged 24/7 dispatch environment with safety in mind. Available in Center lift, Full Lift and Linear configurations, Synergy 2™ consoles offer Watson's superior ground-up structural design, comprehensive front & rear technology access, and solid core structural fabric screens, while surpassing the latest ergonomic standards available. Stress-tested to 40,000 weighted adjustment cycles, Synergy 2™ consoles provide a return on the facility's investment long after the console purchase. Synergy consoles are built in the US to Watson's exacting quality standards.

### User Interface

Watson's Total Comfort System™ puts the user in instant command of ergonomic, lighting, and air flow adjustments using a single device that can be positioned anywhere on the worksurface.

### Technology Integration

TechLink™ provides easy-access connectivity for a keyboard, mouse, or other types of input devices and is fully compatible with all Watson Dispatch consoles.

### Facility Solutions

As part of Watson Furniture Group, we offer a wide range of stylish, functional office systems to outfit executive offices, administrative areas, and conference rooms, as well as multi-purpose learning areas.
