

Synergy™

Consoles

SYNERGY 3™

Synergy 3 represents Watson's premier console line incorporating our signature unified frame construction and front & rear technology access. Synergy 3 consoles introduce a segmented design that offers a new and distinctive array of material options. Synergy 3 provides the most comprehensive solution to meet the demands of both the facility and the user.

SYNERGY 2™

Synergy 2 consoles offer Watson's superior ground-up structural design, comprehensive front & rear technology access, and solid core structural fabric screens, while surpassing the latest ergonomic standards available. Synergy 2 consoles provide a return on the facility's investment long after the console purchase.

SYNERGY 1™

Synergy 1 consoles feature a sturdy "open-leg" design, front-access technology cavities, easy access wire management and solid core structural fabric screens to soften the environment's acoustic glare. Backed by Watson's industry-best warranty, Synergy 1 was designed with the rugged styling and structural integrity that has distinguished Watson Dispatch for over 24 years.

DEPTH ADJUSTMENT ASSEMBLY™

Personalized monitor adjustment that maximizes your workspace, the Depth Adjustment Assembly (DAA) allows the user to adjust the depth of all computer monitors attached to suit specific settings without affecting the monitors height or tilt settings.

TECHLINK™

Providing convenient, easy-access connectivity for keyboards, mice, or other types of input devices, TechLink is fully compatible with all Watson Dispatch consoles and includes ten individual quick-connect points configurable to a user's requirements.

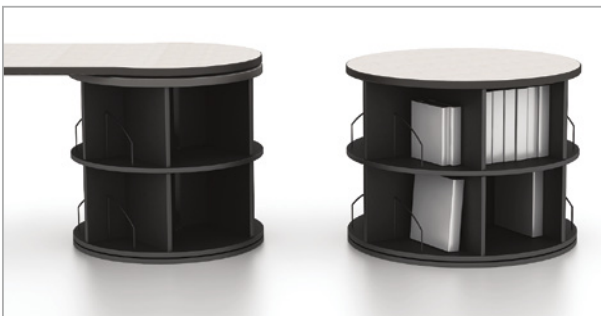

TOTAL COMFORT SYSTEM™

Placing command of console adjustment at a user's fingertips, our Total Comfort System offers total replication of input and primary surface heights. A single device containing lighting, air flow, and radiant heat controls can be positioned anywhere on the work surface.

DIMMABLE LED LIGHTING

Featuring 50,000 hours of lamp life, the LED task light requires minimal power, and generates no heat. The task light is dimmable only with Watson's Total Comfort System, a non-dimming model is also available.

ROTATING RESOURCE

Available in 30 and 40 inches, free standing or tied to a shared peninsula surface, the rotating resource is an excellent source of shared storage for binders and accessories.

STORAGE AND SHELVING

Available in multiple height and depth options, freestanding storage components satisfy varying functionality and aesthetic requirements.
