

Total Comfort System™

TCS

Integrating Ergonomic Adjustments and Comfort Controls into a Single Device

Watson Dispatch's Total Comfort System™ places command of console adjustment at a user's fingertip. A single device containing height adjustment, task lighting adjustment, mobile airflow and radiant heat controls can be positioned anywhere on the worksurface. Precision instrumentation provides a digital readout on surface height so multiple users can quickly adjust to their preferred positions. The patented microprocessor-based system provides full up/down switching for ADA compliance, instant maintenance access, and offers energy savings with an optional infrared activity sensor (sleep mode).

watson

Features

- Independent and/or simultaneous surface height adjustment
- 1-3 mobile fans with speed control and lifetime supply of filters
- Optional activity sensor (sleep mode after 15 minutes)
- Optional height adjustable and non-height adjustable packages
- Dual LED task light dimming or on/off
- Radiant heat control

TCS Height Adjustable (TXXTCSKTH)

- Single Point Interface with adjustment and digital readout for primary surface and input platform
- 2 mobile, filtered air circulation fans (with option for 3rd fan)
- Outlets for 2 dimmable lights (Trillium LED available, rated for 100W per outlet)
- Outlets for 2 on/off task lights (3-step Wave LED and Trillium dimmable LED available)
- Outlet for 1 radiant heater (rated for 200W), heated mat, panel or footrest available
- ADA switch

TCS Non-Height Adjustable (TXXTCSKTN)

- Compatible with all manufacturers' consoles
- Single Point Interface
- 2 mobile, filtered air circulation fans (with option for 3rd fan)
- Outlets for 2 dimmable lights (Trillium LED available, rated for 100W per outlet)
- Outlets for 2 on/off task lights (3-step Wave LED and Trillium dimmable LED available)
- Outlet for 1 radiant heater (rated for 200W), heated mat, panel or footrest available
- ADA switch
