# ZONE™ Personal Storage Lockers

GSA Contract # GS-29F-0109G  
NAVY BPA # N00189-11-A-0030

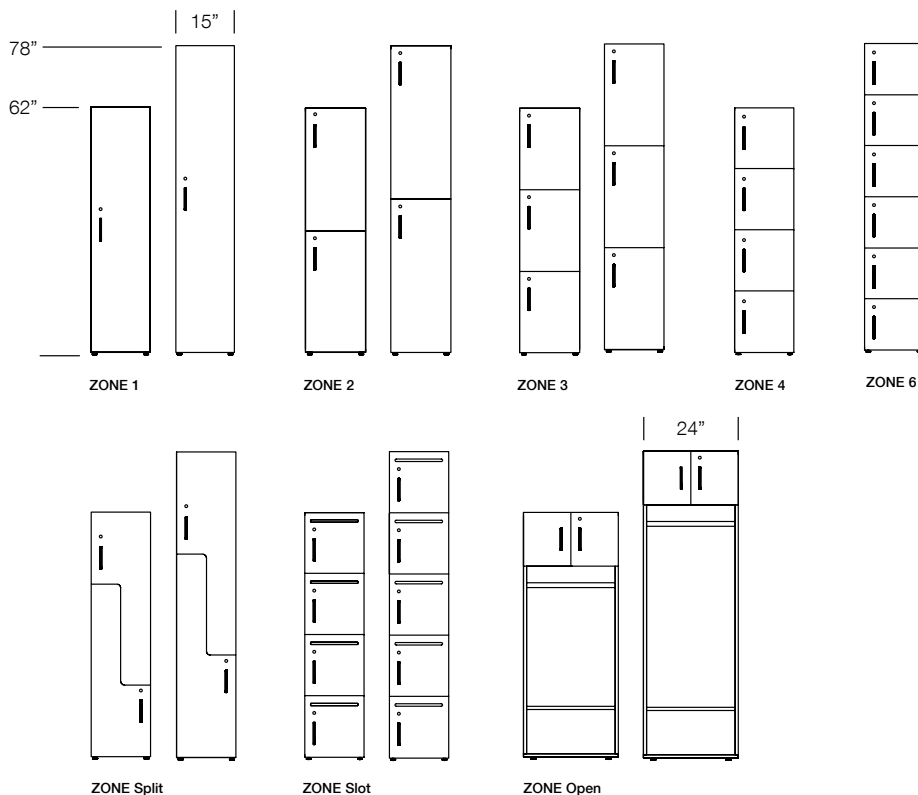

**ZONE elevates the personal gear locker** with refined design details and a select palette of edge-matched laminates. Available in six secure styles, ZONE provides as many as six individual lockers per unit. Models may be ordered to fulfill special tasks including hanging uniforms or for delivery and receipt of confidential correspondence. Whether minimal or large volume storage is required, ZONE offers distinctive solutions for public safety professionals.

ZONE Lockers are available in 2 heights and may be raised off the floor by specifying an optional riser. An individually keyed lock and name plate frame are standard on the face of each compartment. ZONE locker doors may be specified with left or right-hand orientation.

- Use ZONE 1-6 for great looking storage that is modular and freestanding. Wardrobe-sized compartments feature a dual coat hook.
- Use ZONE Split for dual user needs. A small internal shelf and coat hook create a compact and useful division between clothing and personal possessions.
- Ideal for dispatch communications centers, ZONE Slot does double duty by providing individual gear storage and efficiently managing mail distribution.
- Assign ZONE Open to professionals when discreet locker rooms afford larger capacity compartments. This design includes a locking doors for small valuables, a clothing rail for hangers, two independent hooks, and a separate shelf for shoes and bags.

## STATEMENT OF LINE

ZONE lockers are available with one, two, three, four or six secure compartments. Available in 62" or 78" heights, all lockers share a standard 19" depth and 15" width. ZONE may be specified with contrasting or non-contrasting finishes selected from the Watson Desking ZO palette - laminate finishes suited to long-lasting performance and enduring design.
